

PRODUCT SPECIFICATIONS

Working Power: DC3V&AC220V

Output : 6V

Average Static Power Consumption: <50uA

Instant Dynamic Power Consumption: <2.5

Working Water Pressure: 0.05 – 0.7MPa

Sensor Distance: about 16cm

Error detection time: <0.6 second

Maximum washing period: 60 seconds

Environment Temperature: 1~40 °c

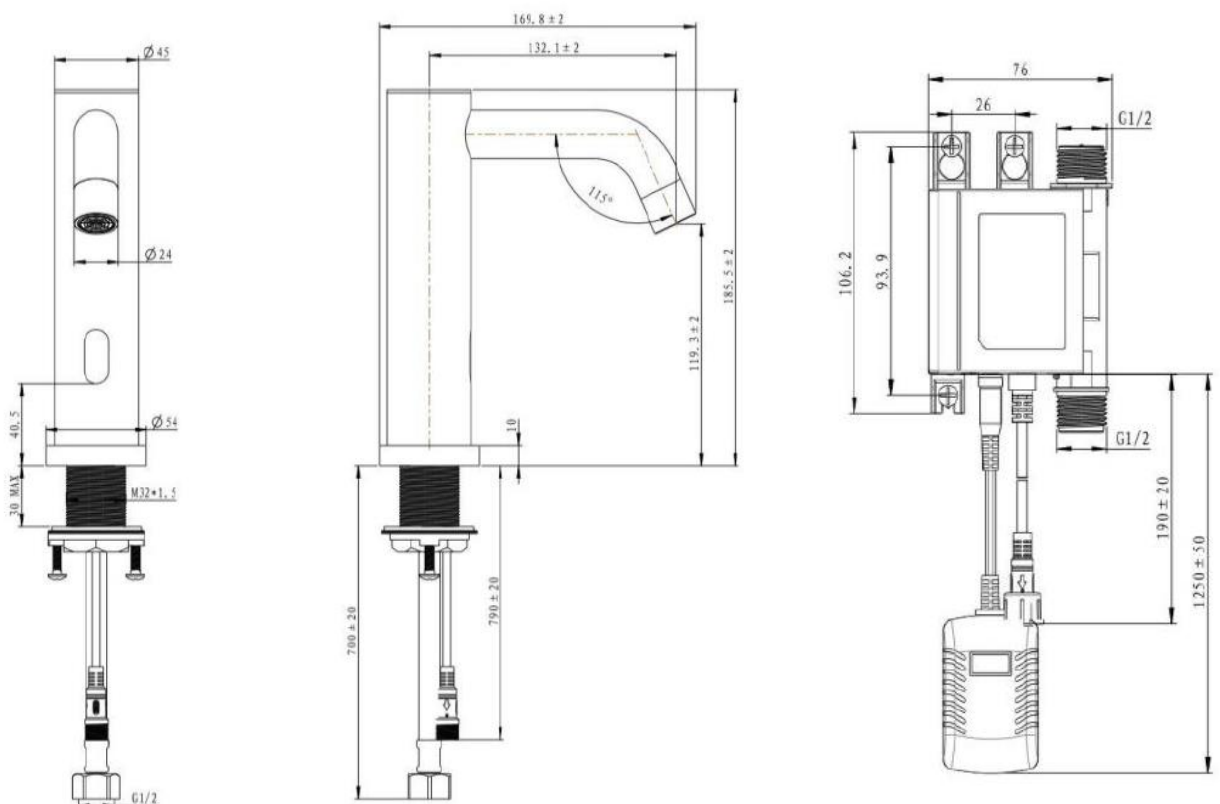

Medium Temperature: 0~65 °c

Water Inlet Thread: G1/2"

Material: Brushed Stainless Steel

Dimension: 169mm x 185mm x 45mm

TECHNICAL SPECIFICATIONS

Unit in millimetres.
